The implementation of electronic notices and payment

Dear Parents/ Guardians,

To further strengthen the communication between the school and parents, and support environmental protection to reduce paper consumption, as well as quicken the processing time on sending and collecting notices and fees, the school plans to use the "GRWTH Home-School Communication and Electronic Instant Payment Mobile App" from January, 2021. Parents and students can use the "Home-School Mobile App" through smartphones or tablets, with functions including: **parents reviewing and replying to the school electronic notices, paying the fees instantly via electronic methods, and receiving instant messages issued by the school.**

1. Parents can now use their smartphones to download the GRWTH mobile app (see the download and installation guide on the next page for details).
2. When registering a parent account, you must prepare your child's student account and password. The student account and password have been posted on P.32 of the Student Handbook.
3. A child can be associated with multiple parent accounts at the same time. Currently, the first registered parent is the "main parent", and the "main parent" will have the authority to manage other linked parent accounts.
4. A parent can associate multiple children. Select Account Linking in the menu and enter your child's login details.
5. For security reasons, parents are advised not to hand over the password to their children, so as to ensure that when parents reply to the electronic notice issued by the school, they enter the password in person and confirm that they are aware of the content of the notice.
6. If you have any questions, please log in to the GRWTH Support Center <https://grwth.crunch.help>.
